

## NOTE AUX ORGANISATIONS PROFESSIONNELLES AGRICOLES

### Information relative au ratio de pâturages permanents

La présente note a pour objet de vous informer l'évolution du ratio de pâturages permanents en 2011.

La situation s'est améliorée en 2011 par rapport à la campagne 2010. En effet, sur cette période, le ratio national augmente de 0,31 %, avec une surface en pâturage permanent qui augmente de 44.000 ha, malgré une nouvelle augmentation de la surface agricole utile (environ +65.000 ha).

Toutefois, **le ratio des pâturages permanents dans la surface agricole utile a diminué de 1,93 % par rapport à la référence de 2005**, puisqu'il s'établit, pour la campagne 2011, à 29,09 % contre 29,66 % en 2005. En outre, **la surface brute en pâturages permanents a diminué de 110.000 ha depuis 2005.**

Au regard des dispositions de la réglementation communautaire, il convient donc de rester vigilant au maintien des pâturages permanents.

## ANNEXE : DONNÉES DÉPARTEMENTALES DU RATIO DES PÂTURAGES PERMANENTS
